Rekortan®

G-13

POWERED BY

Rekortan G-13 is a dual durometer, 13mm, impermeable full pour system. The first layer consists of a self-leveling PU made from environmentally friendly, renewable resources. The top layer is fluid applied and embedded with a dense matrix of EPDM rubber granules.

APT takes great pride in the Rekortan G-13, made from polyurethane and composed of natural resources for its base layer – it is the track of the future. APT is the leader in innovative ideas to help our planet and your athletes be successful.

FAST TRACK SYSTEM:

4mm top layer consisting of Qualipur 5050, EPDM rubber granules, and spray encapsulation
IAAF CERTIFIED SYSTEM

TRADITIONAL SYSTEM:

4mm top layer consisting of Qualipur 5050 and EPDM rubber

9 mm layer consisting of SBR rubber and Qualipur 5052

Highlights

- Featuring APT's unique green layer, based on 70% renewable polyurethane, resulting in a total of 88% renewable/recyclable content
- Outstanding force reduction
- Spike resistant
- Formulated to resist UV degradation in the world's most demanding climates
- Top layer poured-in place installation for a seamless finish
- Embedded surface ensures excellent all-weather performance and spike resistance
- Premium colors available upon request
