GET IN THE KNOW

Cooperative purchasing is a means for schools to buy direct from a vendor using a contract that has already been through a formal competitive bid process.

Built on transparency, all cooperative contracts are posted online, making it easy for Purchasing to conduct their due diligence.

COOPERATIVE PURCHASING HAS WORKED FOR THESE SCHOOLS

Altoona, Mansion Park Stadium
Blue Mt. High School
Brookeville High School
Chestnut Ridge High School
Crestwood High School

Manasquan High School
Neptune High School
Union High School
Martinsburg High School
Musselman High School
Manadnock High School
Tolland High School

YOU KNOW WHAT'S BEST FOR YOUR SCHOOL

► Ready-to-use contract

Save time and money by piggybacking on a contract that has already been publicly awarded.

► Streamlined from start to finish

Piggybacking on a cooperative contract means you start the job when you want, without all the extra paperwork. You work directly with ATT Sports.

► Competitive pricing

School budgets are tight, and it can be difficult to balance providing the best quality for student athletes while being fiscally responsible. Using a cooperative purchasing program allows you the best of both worlds. Rest assured you are receiving competitive pricing on high-quality products, without putting a specific project out to formal bid.

► Take control

The traditional formal bid process can make it difficult to choose the vendor you know is best for your project. In most cases, you must select a contractor who simply meets a short list of minimum requirements. This can lead to poor performing contractors, shortcuts and costly change orders.

Cooperative purchasing allows you to select the most qualified and experienced company, without the hassle of a formal bid process. At ATT Sports, we feel our resume speaks for itself, and schools should be able to select the best.
